TotalEnergies

You are passionate about energy or maybe just eager to immerse yourself in a trading environment?

Our Trading Graduate Program is just right for you!

WHAT WE ARE OFFERING

TotalEnergies Trading Graduate Program is a unique opportunity to work in the vibrant world of energy trading (fuels, natural gas and low-carbon electricity).

You will gain both the technical skills required to operate and a deep understanding of our business and company values to thrive in the world of commodity trading.

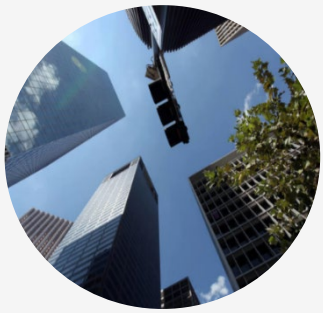
4 ROTATIONS OF 6 MONTHS IN A 2 YEAR-PROGRAM

All graduates will rotate across our 3 main core trading support functions

Another rotation will take place in another department depending on business needs and individual abilities.

Subject to performance, one of the rotations will be completed in a different country to where you started the program. Our key trading hubs are located in Geneva, Singapore and Houston and we are offering opportunities in each of the three locations.

GENEVA



HOUSTON

SINGAPORE

TotalEnergies Trading Graduate Program will give you the opportunity to understand how we operate as a company and to gain a broad knowledge of our key areas of the business preparing you to develop your career within a Trading business unit.

Our program will be engaging and intense. In addition to usual Business activities, we are offering a comprehensive training program including:

- **a purpose-built integration week,**
- **on-the-job trainings as well as a dedicated training path**
- **regular meetings with our Senior Talent Developers.**

WHO WE ARE LOOKING FOR

- A relevant **Master's Degree** or equivalent from 2026 or 2027
- **International experience**, for example having studied a semester abroad, worked as an intern or volunteered in another country than the one you are originally from
- Excellent **interpersonal skills** (assertiveness) and ability to operate autonomously
- Strong interest and **curiosity for commodity trading**
- Ability to adapt to sudden changes and thrive in ambiguity
- Good **team spirit, innovative and entrepreneurial mind-set** with excellent communication skills
- **Eagerness to learn**, performance driven and resilient
- Professional **fluency in English** and globally mobile
